## **Career Seekers Direct Focus On Jobs to Help Save Planet Earth**

With the recent publicity on Climate Change you may be considering a career which will help to save our wonderful planet. Where do you start? This fact sheet gives a range of careers for all abilities for those people who are interested in helping to save the planet and to get paid doing so.

The issues that need to be addressed for our planet to survive include:

- Climate Change
- Population Growth
- Resource Depletion
- Decreased Biodiversity
- Water Issues
- Pollution
- Deforestation
- Conservation
- Waste Management
- Sustainability

All of these things are somewhat interconnected and they all need dedicated people to focus on these environmental issues and make a difference. We all need to make an effort to save our planet and one way that you can make a direct and positive impact on our environment and our world is to find jobs that save the planet.

### **The most eco-friendly jobs:**

To create a full list of jobs that save the planet would be quite the challenge. Below we highlight a selection of environmental jobs that might interest you:

- 1 Ecotourism jobs
- 2 Green builder
- 3 Tree planter
- 4 Wildlife biologist
- 5 Meteorologist
- 6 Solar panel installer
- 7 Seed banker
- 8 Energy consultant
- 9 Biofuels jobs
- 10 Organic farmer
- 11 Outdoor educator
- 12 Recycler

In doing all of these jobs you can raise awareness about environmental issues and earn a salary by helping to save the planet. Every effort you make can make a big difference for you and for future generations.

**How do you know if a job in this industry is right for you? If you are choosing your first career or looking for a career change, our Career Compass Programme can help you see if you are a good 'career fit' for this industry and help you create an action plan to get a role.**
